Subject: Agenda for Meeting with CS, Uttar Pradesh

Kind Attention: Sri D S Mishra IAS
Chief Secretary, Uttar Pradesh

Dear DS,

Thanks for your prompt response to my request for a meeting with you, seeking a brief on the proposed agenda. I have basically 2 agenda points in mind:-

i) **Vision UP@2047**: As you know, PM has launched the historic initiative Vision India@2047. A major challenge in this initiative is "how to see the future, and design/ operate systems for an increasingly VUCA world? ". I would like to suggest taking up of a Vision UP@2047 initiative by the State Government, to develop a model for strategic planning and implementation for answering this question and actualizing this Vision, both at the Central and State levels. The State can thus blaze a trail, which many other states may follow.

The attached note briefly explains this approach for India@2047. It suggests using Strategic Foresight/ Futures Approach as a powerful technology based tool for building credible future scenarios (seeing possible, plausible, probable futures), and for formulating effective strategies for actualizing the Vision, through “ future-driven” governance and “ Agile ” techniques.

This can be discussed when we meet in Lucknow. If you find in principle merit in the proposal, we can have a full-fledged follow up meeting, in which IIT, Jodhpur team from their “ Centre for Technology Foresight & Policy” (CTFP) can make a more detailed presentation, and then work closely with your officers for taking this forward.

ii) Designing Powerful Technology-Based Processes for District Administration: The objective is to use emerging technologies and techniques for setting up powerful administrative processes within district administration. To begin with this could be done around a major holistic program like SDGs/ ADP. I want to suggest taking up of 2 districts for pilot projects for a) focus on harnessing technology for designing powerful internal processes in one district, and b) a holistic initiative adopting a human-centric, technology-assisted approach for solving “wicked” problems in the other. A background note on this is attached.

It would be good if the meeting could kindly be fixed between 13-15 September (preferably 14th). I would also be grateful if your office could tie-up necessary arrangements for accommodation and transport. They can contact me at 9871216655 or 9643213525.

Warm regards
Anurag Goel
Former Secretary, Corporate Affairs
Adviser, IIT Jodhpur
